

Trauma Nursing Core Course-Spring 2012

Build a solid foundation in trauma nursing and become a more effective member of the trauma team. TNCC is an internationally standardized, interactive course that integrates the trauma nursing process into the content and provides the learner with core-leveled trauma knowledge and psychomotor skill experience. Maximize your knowledge, skills, and expertise in the following types of trauma: brain and craniofacial, abdominal, musculoskeletal, spinal cord and vertebral column, burn, pediatric, and pregnancy. All participants (RN, LVN, EMT-P) are eligible to receive 13.83 CECHs. Please contact Jackie Gondeck with any questions or if you are in need of a book at 512-544-8613.
